

PRIJA
Fortifying Shampoo

Product code

TB5LSPR

Product description

FORTIFYING SHAMPOO WITH ERUCA SATIVA, IN 5 L TANK, PRIJA

Product profile

Strengthening shampoo with Eruca Sativa, cleansing and conditioning for all hair types. Formulated with a carefully balanced blend of surfactants, it forms a soft, creamy lather that gently cleanses without attacking the hair structure. Enriched with Eruca sativa extract, it gently cleanses and helps to recompact the hair cuticle, improving shine. Cultivated and appreciated in ancient times throughout the Mediterranean area, Eruca is a very hardy plant that is adapted to the most difficult terrain. Extracts rich in minerals and antioxidants are obtained from the leaves. Treated hair shows a significant improvement (evaluation carried out after 6 washes for comparison with reference sample). Enveloping fragrance combining strength and character with a warm, relaxing atmosphere.

How to use

Gently massage into hair and scalp, rinse thoroughly and repeat if necessary.

Cosmetic characteristics

Appearance

Transparent viscous liquid

pH

5,0 ± 0,3
